

SUSTAINABILITY CODE

Vobster Cast Stone Company as a member of the Taylor Maxwell group of companies complies with the Code for Sustainable Homes which was introduced in 2007.

The Code relates to six levels of increasing standards which are required. The particular section which relates to Vobster Cast Stone's products is included within the Environmental Impact category.

This category includes the "Responsible Sourcing of Materials". It relates to the procurement of products both legally and ethically. Taylor Maxwell and Vobster Cast Stone Company have a procurement policy which insures that materials are sourced from suppliers who hold recognised accredited certification. Those suppliers that do not yet hold certification should be working towards achieving accreditation.

Taylor Maxwell Group Ltd has achieved such accreditation and holds the following certificates.

ISO 14001 : 2004 Procurement and supply of Bricks, Blocks, Masonry, Roofing Tiles and Cladding Materials to the construction industry.

ISO 14001 : 2004 The provision of support services for the Taylor Maxwell Group Of Companies

ISO 14001 : 2004 Procurement and supply of Bricks, Blocks, Masonry, Roofing Tiles, Cladding Materials and Timber products to the construction industry.
